## OBJECTIVE

I'm passionate about Information Security and want to use my skills and knowledge to gain more experience. I believe that by helping organizations become more secure and compliant with regulations and standards, I can make a positive impact.

## PROFESSIONAL EXPERIENCE (3+ YEARS)<sup>1</sup>

### INFORMATION SECURITY ANALYST, ZERODHA BROKING SERVICES, BENGALURU, KA | APR 2025 - PRESENT

- ➡ **Risk Management:** Identify potential risks and maintain a risk register and conduct a maturity assessment based on *SEBI-Cyber Capability Index (CCI)*.
- ➡ **Security Audits:** Support internal and external audits (*SEBI-CSA, SEBI-CSCRF, SEBI-SA, ISO 27001*) and test controls based on *ISO 27001, SEBI-CSCRF, and CIS CSC*.
- ➡ **Security Monitoring:** Monitor servers, network devices, endpoints, and exchange services for anomalies or threats and configure alerts in SIEM to detect the external and internal threats. Also automate the responses to reduce the false positive

### SENIOR OFFICER - RISK, MUTHOOT CAPITAL SERVICE LIMITED, ERNAKULAM, KE | SEP 2024 - MAR 2025

- ➡ **Risk Management:** Identify potential risks, maintain a risk register and KRI, and conduct a maturity assessment based on *C2M2*.
- ➡ **Security Audits:** Support internal and external audits (*RBI, SEBI, UIDAI, ISO 27001*) and test controls based on *ISO 27001, RBI-ITGRCAP, and NIST CSF 2.0*.
- ➡ **Documentation and Reporting:** Review and update ISMS policies and procedures, review security activities and reports, document cyber incidents, and report them to the government if required.

### SOC ANALYST, INDECOMM BUSINESS SERVICES, BENGALURU, KA | FEB 2022 - SEP 2024

- ➡ **Security Monitoring:** Monitor servers, network devices, endpoints, and exchange services for anomalies or threats.
- ➡ **Risk Management:** Identify potential risks, maintain a risk register, and communicate with stakeholders to determine risk tolerance.
- ➡ **Compliance and Auditing:** Perform ISMS internal audits, support external audits (*SOC 2 Type 2, ITGC, ISO 27001*), and test controls based on *ISO 27001* and *COBIT*.
